2020 spring: Ling 551 – Syntax 2

Martin Salzmann – msalzm@ling.upenn.edu

1 Practical issues

- credit requirements:
 - regular attendance
 - active participation
 - read the assigned papers
 - grade composed of:
 - * regular written assignments (1/3), typically involving data analysis/various exercises, potentially also questions related to a paper; due Tuesday before class (working with other students is o.k, but solutions have to be handed in individually, preferably in electronic form; use latex for trees etc.)
 - * write a term paper (deadline: May 18) (1/3)
 - * presentation of (an earlier stage of) the term paper (1/3): roughly 20min + questions, with handout/slides, towards the end of the semester
- auditing is welcome
- please register on Canvas, where the papers will be made available

2 Goals

- get an overview of A'-related phenomena
- understand the major theoretical issues
- learn to read original papers
- learn to analyze complex data sets
- learn to develop your own research questions
